Alternatively, the Scenic Skyway offers a bird's eye view over the valley, with a glass floor to enhance the experience. Scenic World also features a revolving restaurant, a cafe and a kiosk, in addition to the documentary theatre and souvenir shop. Rides can be purchased, starting from \$16 for adults and \$10 for children, and combination or family passes are available. [More info.](#)

The Landslide

'The Landslide' is a large rockfall going into the valley approximately 100m. There is a good vantage point for the landslide from under the cliffs to the east, and a great but more distant view from Narrow Neck lookout. The landslide occurred in 1931 after a few days of rumbling. There has been much debate as to whether this event was helped along by erosion and coal mining in the area at the time.

There is short constructed stone wall left over from when there area was habited by miners. The campsite is surrounded by a tall forest, bracken ferns and some nice fern trees. - E** Emergency beacon (PLB's) should be carried on walks with significant gaps in mobile coverage (check terrain profile).
- K** Keep to your planned route and follow the map and walking trails.

There are also excellent views of the cliffs above and the landslide as the vegetation is quite sparse here.

There is a 'Ruined Castle' arrow here, pointing back up the hill. Turn left : From the intersection, this walk follows the 'Katoomba' sign along the mostly flat and clear track, keeping the main valley to your right. The track almost immediately passes a campsite (down a steep track on your right) and continues along the flat through the ferny forest. A little over 200m later, the track passes a large square boulder, then about 100m further, this walk comes to an intersection, where there is a fair amount of coal on the ground, a campsite down to your right and the entrance to an old small coal mine (behind a rock) on your left.

Continue straight: From the intersection, this walk heads along the main track initially keeping the campsite down to your right. The clear track is mostly flat and passes through a tall turpentine forest for about 500m before passing another campsite (on your right). Then, just a few metres further on, this walk comes to a signposted three-way intersection where a sign points back along the track to 'Mount Solitary'. Now Turn left to rejoin the main walk .
